

Lawmaker Pledge to Protect Schools, Children, and Families from the Biden Title IX Plan

Title IX is the federal law designed to stop sex discrimination against boys and girls in schools. But President Biden’s Title IX regulation redefines sex to include “gender identity.” This is having devastating effects on schools, children, families, and more. We must assure that all schools around the country abide by the 2020 Title IX Rule, implemented by the first Trump administration.

I pledge to work to assure that:

- 1. Schools and other organizations shall utilize the traditional binary definition of “sex.”**
- 2. Schools shall obtain prior consent from parents for any use of gender pronouns, or gender-dysphoria counseling or treatments.**
- 3. Parents shall have the right to examine and opt their children out of any school curricula dealing with sexuality and gender identity.**
- 4. Schools shall only allow biological females to participate in women’s sports, enter women's locker rooms, and use women's bathrooms.**
- 5. Schools shall adhere to Constitutional due process procedures to protect falsely accused males from Title IX complaints.**
- 6. Schools and other institutions shall fully uphold Constitutional free speech guarantees.**
